\*Does not include airfare, lodging and meals.

U.S. exports to Turkey in 2007 were \$6.59 billion, an increase of 15% compared with 2006. U.S. exporters have excellent prospects in this diverse market. Perhaps the most important sector for the next decade will be energy. Electricity demand is growing at 8% a year.

*“VEDP was very instrumental in setting up meetings and scheduling appointments. Future sales seem imminent.”*

U.S. exporters have excellent prospects in this diverse market. Perhaps the most important sector for the next decade will be energy. Electricity demand is growing at 8% a year, and Turkey must quickly add to its capacity to meet that demand. U.S. suppliers and service companies should look into the sector as it relates to electricity and gas distribution, power generation and renewable energies (wind and hydro, particularly).

9 Virginia companies have participated in 2 VEDP-led group market visits to Turkey since 2004.

#### Top U.S. Exports to Turkey:

- Water and Wastewater Technologies
- Franchising
- Education Services
- Automotive Parts and Equipment
- Defense Equipment and Services
- Medical Equipment and Services
- Information Technology
- Telecommunications Equipment & Services
- Electric Power Systems
- Natural Gas Transmission, Distribution, Exploration, Storage and Training
