Why Farnborough Air Show?

The Farnborough Air Show is the world's most iconic global aviation event. This year's event will once again bring together the industry's players worldwide to showcase the latest technological innovations. The Farnborough Air Show is an opportunity to meet the main industry players, seize new business opportunities, present expertise and innovations to the world and forge technology partnerships. By taking part in the Show you will be at the center of the event where all the decisions are made, where the history of aviation and space exploration is being written. You will be investing in the commercial and strategic future of your company.
